

Imprivata Identity Governance on-site certification program

Maximum participants: Up to four people.

Audience: IdG Administrator, Database Administrator, Security/HR Analyst, Application Developers, Compliance Team members.

Required pre-work: Completion of approximately four hours of online self-paced training.

Requisite knowledge: Experience with database administration and scripting languages.

Format: Blended learning approach combining instructor-led training with online instruction.

Length: 5 days

Overview

This five-day Imprivata Identity Governance On-site Certification Program provides administrators with the knowledge they need to make educated choices to configure and maintain role-based access control, automated provisioning / deprovisioning, streamlined auditing processes, compliance reporting for their organization’s needs, and analytics that enable faster threat evaluation and remediation.

Attendees who successfully complete all course requirements including passing the certification exam will earn Imprivata Identity Governance Certified Administrator status, valid for one year.
